

FOR IMMEDIATE RELEASE

THE TOWN OF CARBONEAR INITIATES A RECREATION MASTER PLAN

Carbonear, NL, November 16, 2022 - The Town of Carbonear has retained the services of Tract Consulting Inc. to prepare a Recreation Master Plan that will inform future planning, investment and development of recreation activities and facilities in the town. The Plan will enable Council to continue to offer residents a diverse range of recreational opportunities, ensuring a high quality of life for Carbonear residents.

A significant component of this plan will include consultation with residents, user groups and other stakeholders to create a Master Plan that is financially viable, relevant, comprehensive, and inclusive for all members of the community. The plan will include a review of existing programs and infrastructure and identify trends and opportunities that are specific to our community. It will consider the need for increased opportunities for leisure and wellness activities for all ages.

“We are pleased to announce the commencement of the Recreation Master Plan” says Mayor Frank Butt. “The Master Plan will ensure the Town continues to be a place where people want to live and play. It will enable the Town to build upon its many attributes and strengths, and to realize opportunities for the long-term provision of services and facilities that meet the needs of all residents. We look forward to engaging residents and stakeholders in the development of a plan tailored to the needs of our growing community.”

The new Recreation Master Plan will be completed in 2023.
